

Dole, Simon host reception for Bowe marking new book

Many members of the campus community and Gallaudet alumni attended a special reception on Capitol Hill Nov. 19 to honor alumnus Frank Bowe, G-'71, on the publication of his book, "Changing the Rules," by T.J. Publishers, Inc.

The reception, held in the Caucus Room of the Russell Senate Office Building, was hosted by Sens. Robert Dole and Paul Simon. At brief ceremonies held during the reception both senators paid tribute to Dr. Bowe and spoke about the importance of his work with the American Coalition of Citizens with Disabilities (ACCD).

Leonard J. Suchanek, chief administrative judge with GSA's Board of Contract Appeals, was master of ceremonies. Others on the program included William Bradford Reynolds, assistant attorney general with the Department of Justice; Sen. Strom Thurmond; Madeleine Will of the Department of Education; Eunice Fiorito, former president of ACCD; and alumnus Claude Stout of the National Association of the Deaf.

"Changing the Rules" traces Frank Bowe's life from his boyhood in small-town Pennsylvania, through his college years, to his leadership of the ACCD and its civil rights struggle in the 1970s on behalf of disabled Americans.

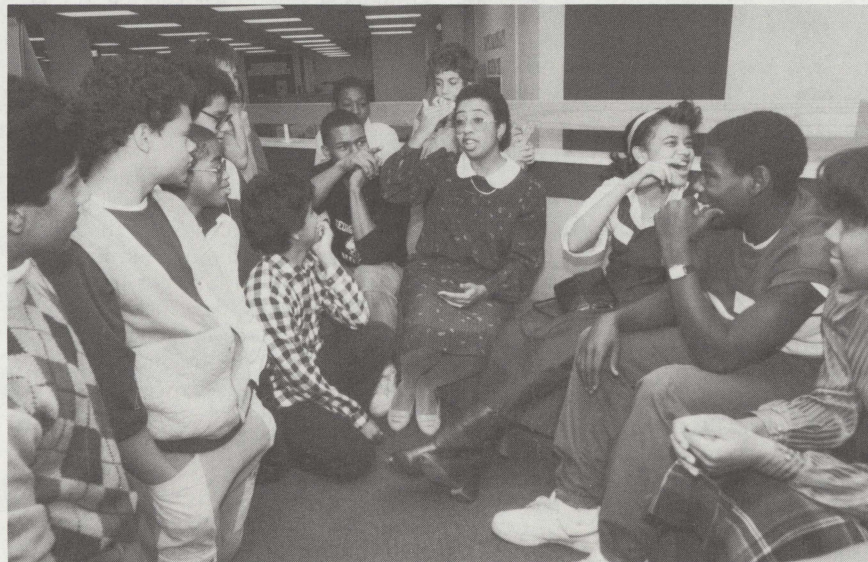

Madeleine Will announced at the reception that Dr. Bowe had been selected to head the new federal Commission on Education of the Deaf.

Year-end checks ready on Dec. 22

The last pay date in calendar year 1986 is Dec. 30. Because the University will be closed for the winter break from Dec. 25 through Jan. 2, the Controller's Office has adjusted its schedules to ensure the completion of the Dec. 30 payroll prior to the winter break.

Although the paychecks will not be payable until Dec. 30, they will be available for pickup at the regular distribution points on Tuesday, Dec. 23. If you plan not to be on campus that day, you may request that your check be mailed to your home.

Forms for this mailing service will be enclosed with the Dec. 16 paychecks and will also be available at the Cashier's Office, B-11, in College Hall. Employees who use direct deposit will not be affected by the winter break closing.

Marlene Matthews (center), secretary-interpreter at KDES, interprets the words of rap songs during an impromptu performance by students of Kelly Miller Jr. High School when they visited KDES recently as participants in American Education Week activities.

Florida program on services to elderly draws cooperation of Gallaudet experts

Three Gallaudet departments recently combined efforts to break new ground in providing outreach services to the aging population in southeast Florida.

Maureen Durkin, coordinator of the Special Populations Program (SPP) of the National Academy; Patrick Cox, chair and professor of audiology; and Janet Pray, chair and associate professor of sociology and social work, traveled to Florida last month to initiate training programs for professionals involved in services to aging people.

The program, conducted at Ft. Lauderdale, Miami and Palm Beach, was jointly sponsored by Gallaudet University; the Gallaudet Southeast Regional Center at Flagler College; and Florida International University's Southeast Florida Center on Aging.

Durkin opened the three-day program with an introduction and overview of its theme "When Hearing Fades: Responding to the Needs of a Special Population." She also spoke on "Local and National Resources."

Dr. Cox spoke on "Hearing Loss and Aging: Facts for Service Providers" and "Communication Strategies and Assistive Devices."

Dr. Pray's presentations included "The Impact of a Hearing Loss on the Older Person and His or Her Family" and "Guidelines for Professionals Working with the Individual and the Support System."

According to Durkin, people over age 60 comprise 17 percent of the population of Florida—compared with 11.9 percent of the population of the United States.

"Because of their great number, the aging people in Florida have a wealth of services available. However, no reg-

ular program exists to train service providers for dealing with hearing loss resulting from the aging process," said Durkin. "Our program offered a first-time focus on this aspect of aging."

More than 100 professionals who work with aging people, including social workers, church and nursing home affiliates and hearing and speech specialists, participated in the program. Many of them are working in the field while studying for advanced degrees of certification, said Durkin. "Training these specialists and providing information to the population they serve presents a new outreach challenge for Gallaudet."

"It's amazing how many service providers to elderly people have no background in the many aspects of deafness," said Dr. Cox. "Our audiences were thirsty for information about how to read audiograms, make better use of hearing aids and modify the environment to facilitate communication. The program acted as a catalyst for talking about hearing loss, assistive devices and Gallaudet's resources."

Durkin credited much of the program's success to the cooperation of Donald Rhoten, director of the Gallaudet Southeast Regional Center. Rhoten located specialists working with the local aging population. Through his efforts the Deaf Services Center in Miami found out about the Southeast Florida Center on Aging at the Florida International University and contacted its director, Martha Peleaz. "It was a perfect hook-up, resulting in an excellent outreach program—one that we hope to offer on an ongoing basis," said Durkin.

Faculty Senate approves council, tackles pay issue

The Collegiate Faculty Senate voted Nov. 24 to found a University Council designed to establish and maintain more effective communication between the faculty and the administration.

The University Council proposal, initiated last year and recently revised, was approved by a large majority.

In other action, Committee E (Compensation) chair Evelyn Wolstein, professor of sociology and social work, summarized memos written by Committee E and the administration regarding the administration's proposed faculty salary increase of 5.5 percent for FY 1987.

(A recent memo from Neil Reynolds, Faculty Senate chair, included a resolution approved by the senate requesting that the administration fund a minimum 7 percent across-the-board pay increase for faculty.)

The senate approved a motion by James Madachy, professor of English, endorsing a Nov. 19 Committee E report which included a request that the FY 1987 increase be changed from 5.5 percent to 7 percent, the FY 1988 increase be changed from 6 percent to 9 percent and that Committee E submit to the administration a long-term faculty compensation plan.

Wolstein conveyed Committee E's appreciation of the administration's identification of \$100,000 in non-federal funds that can be applied to a one-time faculty bonus this fiscal year, but she insisted that the 7 percent pay increase is a primary issue.

At the senate meeting, Provost Catherine Ingold reiterated a request that Committee E and A move quickly on their intended review of the administration's faculty compensation proposal so that recommendations may be submitted to the Board of Trustees at its February meeting.

The senate approved a resolution urging the administration to postpone any presentation of a faculty compensation plan to the board until the faculty finalizes its recommendations.

The senate also passed a resolution submitted by Bruce White, assistant professor of English, affirming support of "the concept that Gallaudet University employees have the right to decide freely and without harassment or undue influence from any source whether they wish to have union representation."

Lou Markwith (left), vice president for University Relations, receives a check from Martin Szostek, public relations manager for AT&T, which helped finance the renovation of Fowler Hall.

Deaf Maryland residents have access to 911 emergency telephone number

All deaf residents of Maryland now have 911 emergency number access, according to Marilyn E. Farndon, secretary of the state's Emergency Number Systems Board (ENSB).

In a recent letter to Telecommunications for the Deaf, Inc. (TDI), Farndon said that the 23 Maryland counties and Baltimore City met the mid-1985 deadline for implementing the 911 system as mandated by the 1980 Annotated Code of Maryland.

The law requires that "every jurisdiction shall address the potential need for handling calls received from foreign-speaking, deaf and handicapped citizens."

Farndon explained that all Public Safety Answering Points (PSAPs)—the 911 answering stations—"must have a teletype and acoustical couplers for access by persons with a speech or hearing impairment" and that "call takers must be able to recognize the distinctive tone generated by an incoming call from a teletype machine and be able to handle the caller's request."

Farndon said that very few calls have been received over these TDD machines. "We feel that one of the ex-

planations for this may be that hearing impaired people are not aware that this capability exists in the PSAPs.

"Several counties have been compiling a list of residents in their area that they know have TDDs, and they have also contacted these persons by phone or mail to make them aware of TDD capability at the PSAPs."

Sheila Conlon-Mentkowski, staff attorney with the National Center for Law and the Deaf (NCLD) and chair of the Maryland Governor's Advisory Commission on the Hearing Impaired, said that copies of Farndon's letter are being sent to various publications disseminated in local hearing impaired communities.

"The commission also plans to get in touch with deaf, hearing impaired and deaf-blind individuals and with legislators and government officials so that we can ascertain what is or is not accessible or available to these communities in each region," said Conlon-Mentkowski.

Members of the Gallaudet community are invited to share their experiences or comments regarding 911 emergency accessibility for hearing impaired people in Virginia and D.C. as well as Maryland. Please send them to *On the Green* office in Chapel Hall. The responses will be shared with NCLD staff and will be considered for inclusion in a later OTG story.

Auction raises nearly \$16,000 for Gallaudet

The Nov. 20 charity auction sponsored by the Society of Consumer Affairs professionals (SOCAP) raised nearly \$16,000 for the University.

The 150 ticket-holders bid for items such as a weekend of sailing for two on Chesapeake Bay (donated by Sharon Hayes, coordinator of residence hall facilities in Student Affairs, and husband, Elmer) and a Uni-PC/XT with RGB color monitor (donated by alumnus John Yeh).

Opportunities to dine with President and Joan Lee raised \$1,400 dollars from 14 donors.

The annual event featured auctioneers Thomas Doyle (Gallaudet Institute fellow), Don Pettingill (assistant to the vice president for University Relations) and Bernard Bragg (Gallaudet artist-in-residence).

Announcements

"Ole Jim" will be adorned in holiday decor for a disco night on Saturday, Dec. 13 from 8:30 p.m. to 12:30 a.m. Music will be provided by T.H. Wave with disc jockey Henry Grau. Free munchies and a cash bar will be featured.

The MSSD Theatre Showcase Festival will be presented Dec. 11, 12 and 13 beginning at 7:30 p.m. Youths from local schools will join the MSSD performers in sharing their works. This year's festival will feature the directing debut of Michael Lamitola, a member of the National Theatre of the Deaf for the past six years.

"President Lee's Forum" will be broadcast on Channel 33 of the campus cable system throughout the week of Dec. 15. Jerry C. Lee is joined by Raymond Trybus, dean of the Gallaudet Research Institute, in describing the research being conducted on campus and introducing several researchers in the field of deafness. "Forum" can also be seen on community access channels of nearly all cable companies in the Washington area, and on cable systems serving communities near Gallaudet's five regional centers.

All graduate faculty and students are invited to a reception on Monday, Dec.

Hallmark is host at tribute to film

Hallmark Cards, sponsors of the Hallmark Hall of Fame, hosted a special showing of the Emmy award-winning drama "Love is Never Silent" at the Kennedy Center's American Film Institute Theater Nov. 24.

The special showing, followed by a reception in the Kennedy Center Atrium, marked the opening of Hallmark Hall of Fame's 36th season. "Love is Never Silent" was chosen to inaugurate that season, becoming the 150th Hallmark Hall of Fame presentation when it was rebroadcast Dec. 1 on NBC-TV.

Prior to the showing and reception, Gallaudet University, the Kennedy Center and Hallmark honored Phyllis Frelich, Edmund Waterstreet and Julianna Fjeld in a ceremony on the AFI stage. Frelich and Waterstreet, the film's co-stars, graduated in 1967 and 1968 respectively; Fjeld, the co-producer, is a member of the Class of 1970.

Retired faculty member Francis dies in Texas

Doris H. Francis, former associate professor of romance languages, died Nov. 18 of cancer in Galveston, Texas, where she had lived since her retirement. She was a member of the Gallaudet faculty from 1955 to 1973.

A memorial service was held at St. Luke the Physician Episcopal Church in Galveston on Nov. 23.

She is survived by her husband, Philip Francis of Galveston.

15 beginning at 3 p.m. in "Ole Jim" to recognize distinguished academic achievers.

The Gallaudet University chapter of the international service organization Sertoma (Service to Mankind) is sponsoring a holiday party for KDES students from kindergarten through second grade on Thursday, Dec. 18. Children from five other nearby schools will also be invited. For more information about Sertoma, call Eric Bradshaw, chair of membership, x5051; Jim Barnes, president of the chapter, x5075; or David Martin, chair of the sponsorship committee, x5520.

Diane Hottendorf, director of the Gallaudet Dance Company, announces two positions open on campus in the field of dance. The first, for a student internship in the Department of Physical Education and Recreation during the spring semester, has an application deadline of Dec. 12. For more information, call Hottendorf, x5493 (TDD). The second is for a teacher of tumbling/ballet for hearing impaired and hearing children in the National Dance Academy, with an application deadline of Jan. 23. Interested individuals should contact Sue Gill-Gould, x5492 or x5510.

The second annual conference of the Lehman College's Program for Deaf and Hearing Impaired Students will be held on that campus April 3. The keynote speaker will be 1945 Gallaudet graduate Robert Panara, professor of English and drama at the National Technical Institute for the Deaf (NTID) and associate editor of the "Gallaudet Encyclopedia of Deaf People and Deafness." The conference committee is now accepting presentations on the conference theme "Removing the Writing Barrier: A Dream?" Papers must be submitted by Dec. 15 to program director Deborah Copeland, Lehman College, Room 138, Speech and Theatre Building, Bedford Park Boulevard West, Bronx, NY 10469.

Need temporary relief? Personnel offers cure

Need temporary secretarial help for a day? A week? Longer?

The Personnel Office has established a Temporary Secretarial Service pool of six secretaries with a number of others "on call" for placement within the University.

The temporary secretaries are currently receiving orientation to Gallaudet's structure and policies as well as to deafness and basic sign language. Also included in the training program is personal computer training, including formatting letters, memos and reports.

The service's starting date is Jan. 2; however, assistance will be available Dec. 22, 23 and 24.

Placement is on a first-come, first-served basis and should be requested one week in advance. The current billing rate is \$8 hourly for a minimum of four hours.

To request this service or for more information, call the Personnel Office, x5350.

Published each Monday for staff and faculty of Gallaudet University by the Office of Alumni Relations and Advancement, Chapel Hall, x5100.

Gallaudet University is an equal opportunity employer/ education institution. Programs and services offered by Gallaudet University receive substantial financial support from the U.S. Department of Education.

Black deaf group offers role models

The Black Deaf Advocates (BDA), an organization concerned with the rights and responsibilities of black deaf citizens, has moved positively during the past five years to encourage black deaf adults to take leadership roles in various capacities, said BDA national board member Albert Couthen, assistant principal of KDES.

"BDA is meeting its responsibility to provide role models for black deaf youths," Couthen said.

The national organization grew out of a small "Black Deaf Caucus" formed during the 1980 convention of the National Association of the Deaf (NAD).

According to Sheryl Guest-Emory, BDA national executive director and Gallaudet alumna, the founders of the original group were concerned with identifying black deaf people, the problems that prevented them from achieving their potential, their isolation and lack of leadership and motivation.

In 1981, eight organizations from various regions formed a coalition and adopted the present name. The BDA was officially established nationwide in 1982.

"A primary priority now," said Couthen, "is to work cooperatively with the NAD in setting up youth leadership programs for minority children."

Gallaudet Community members who are officers in the BDA's Washington, D.C. Chapter are President Reginald Redding, instructor at KDES; Secretary Al Couthen; and Assistant Treasurer Evelyne Mitton of the Personnel Office.

BDA officers at the national level from Gallaudet are Treasurer Patrick Atuonah, learning skills specialist; and Coordinator of the Black Deaf beauty pageant Sandi LaRue, a developmental counselor. Both Atuonah and LaRue are from Northwest Campus.

Among Gallaudet alumni who are national BDA officers are Guest-Emory and Secretary Dr. Seth Acloo, director of the Evaluations Center at the Louisiana School for the Deaf.

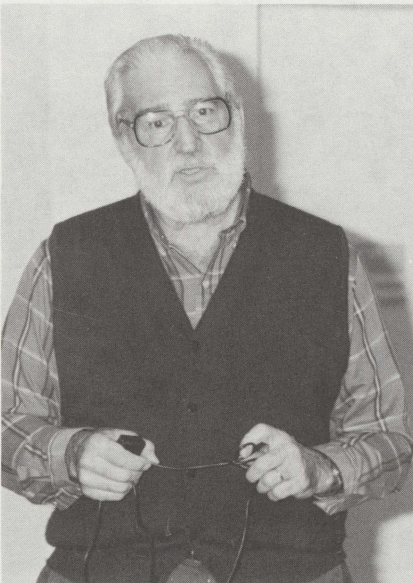

New 'Deaf Mosaic' focuses on transition

This month's edition of "Deaf Mosaic" (#209) focuses on the transition of Gallaudet College to Gallaudet University. In addition to presenting highlights of the activities of University Week, "Deaf Mosaic" includes an interview with Dr. Jerry C. Lee on the role of Gallaudet in deaf education.

Also featured in this edition is an interview with Julianna Fjeld, co-producer of the Emmy award-winning film "Love is Never Silent," and a feature story entitled "The Town the School Built" about Cave Springs, Georgia, home of the Georgia School for the Deaf.

Sheila Conlon-Mentkowski concludes her series of discussions on tenants rights in the "Legal Corner," and Melville Ballard, Gallaudet's first graduate, is featured in this edition's "Deaf Portrait."

The newest "Deaf Mosaic" can be seen at 11:30 a.m. every day for the next two weeks on Channel 33, and at other times on cable TV systems throughout the Washington area.

Dr. Joseph Szuhay of the University of Scranton presents a lecture sponsored by the Department of Counseling last month on "Rehabilitation Counseling in the USSR."

Press publishes children's books

Two new childrens' books have been published by the Gallaudet University Press.

I Can Sign my ABCs by Susan Chaplin, is an alphabet picture book designed to introduce youngsters to sign language. The illustrations, by Laura McCall, show each letter of the alphabet and its manual handshape, with facing pages showing a picture and sign of an object beginning with that letter.

My First Book of Sign by Pamela J. Baker, shows the sign for 150 alphabetically grouped words that research found to be used most frequently by children. Each sign is illustrated by Patricia Bellan Gillen. The book provides descriptions of the signs including proper handshape, position and movement.

The books are printed in full color on durable coated paper for early readers.

Sponsored R&D

The Office of Sponsored Programs is pleased to announce the following awards for the first quarter of the academic year.

Marin Allen, School of Communication: "Videotapes on the Deaf Child," \$28,500 from the American Academy of Otolaryngology for one year.

Thomas Allen, Center for Assessment and Demographic Studies: "Current and Future Needs of the Hearing Impaired Elderly," \$38,220 from the Administration on Aging for the first year of a two-year project.

Barbara Bodner-Johnson and Thomas Jones, Department of Education: "Preparation Program for Parent-Infant Specialists," \$12,960 in supplemental funds from the U.S. Department of Education (ED).

Timothy Bunnell, Sensory Communication and Research Lab: "Speech Enhancement Based on Articulatory Properties of Clear Speech," \$86,270 from the National Institute on Neurological, Communicative Disorders, and Stroke through the University of Maryland for the first year of a three-year project.

James Calloway, Physical Education and Recreation: "Preservice Training of Therapeutic Recreation Personnel," \$44,758 from ED for the first year of a three-year project.

Paul Cunningham, Biology: "Micro-computer Technologies in the Facilitation of the Hearing Impaired in the Life Sciences," \$117,238 from the National Science Foundation for the first year of three-year project.

Carol Denninger, Department of Linguistics and Interpreting: "Interpreter Training for Deaf Individuals," \$73,851 from ED for one year.

Judith Harkins, Technology Assessment Program: "Advanced Rehabilitation Technology Network Computer System," equipment valued at \$4,000 from ACS Telecom; and "Technology for Sensory Devices for Deaf and

Severely Hard of Hearing People," \$149,978 from ED for the first year of a two-year project.

David Martin, Department of Education: "Hearing Impaired Learners—Improving Cognitive Skills of Hearing Impaired College Students," \$49,670 from ED for the final project year.

Anne Nissen, Experiential Programs Off Campus: "Cooperative Education Program," \$50,600 from ED for one year.

James Pickett, Sensory Communication and Research Lab: "Perception of Complex Auditory Stimuli by the Deaf," \$185,576 from the National Institute on Neurological, Communicative Disorders, and Stroke for the first year of a five-year project.

Kathleen Shaver, Genetics: "Genetic Diseases Testing and Counseling Project," \$129,719 from the Department of Health and Human Services for the final project year.

Channel 33

Channel 33, the Gallaudet cable television channel, will air the following programs this week from 9 a.m. to 5 p.m.

9-9:30	Out of Sight, Out of Mind
9:30-10	Deaf Mosaic #205
10-10:30	Music Mosaic #3
10:30-11	Celebration/Ways of Knowing
11-11:30	Deaf Mosaic #206

Bachtel repeats as All-American in cross country

For the second year in a row, Betsy Bachtel gained All-American honors in the NCAA Division III national cross country championships held Nov. 22.

Bachtel finished sixth out of 115 women who had qualified for the national finals in regional championships. Bachtel had placed first in the Mid-East regional held Nov. 15 at Allentown College in Center Valley, Pa.

In the Nov. 22 national meet, Bachtel's time for the 5,000 meters was 20:17—far from her best time, but excellent considering the circumstances. The cross country course at Fredonia (N.Y.) State University was covered with four inches of snow.

Pamela Burton, assistant teacher in the 2-year-olds' classroom at the Gallaudet University Child Development Center (CDC, formerly Day Care Center), guides the children through a book entitled "Flying." Gail Solit, the CDC program coordinator, supervises all teachers.

You & Your Job

On Oct. 22 President Reagan signed the Tax Reform Act of 1986. The act contains a number of provisions which affect 403(b) tax-sheltered retirement plans. The effective date for most provisions is Jan. 1, 1987. Two of the more critical changes are described briefly below. Several of the plan sponsors have issued informational pamphlets describing the impact of the Tax Reform Act of 1986 in more detail.

You are strongly encouraged to talk with your 403(b) representative to see how the act affects you and your savings plan.

Contributions: There is a new limit of \$9,500 per year that may be deferred from your taxes.

Withdrawals: For calendar years 1987 and 1988, you may make withdrawals from your tax-deferred annuity at any time subject to the usual withdrawal restrictions. However, beginning Jan. 1, 1987, the federal government will impose an additional 10 percent income tax on all withdrawals from tax-deferred annuities prior to the attainment of age 59½ by the employee. Exceptions to this are: withdrawals made on account of death or disability; early retirement under the terms of the plan covering the employee (age 55 and over); annuity election made after the employee's separation from service; a qualified domestic relations order; or deductible medical expenses (the withdrawal may not exceed your deductible medical expenses).

For calendar year 1989 and after, deposits that reflect your own contributions and the earnings thereon will be restricted from withdrawal except for reasons of termination of service, hardship and the circumstances mentioned above.

Given the tax brackets contained in the new tax act, the additional 10 percent income tax may not have as big an impact as it would initially appear. Because tax brackets in the new act have been reduced, the total tax you will pay on all withdrawals will also be reduced. This means that you could owe less to the federal government in 1987 than you would in 1986 should you withdraw the same amount.

If you plan to make a withdrawal, you may want to talk to your annuity plan representative first or a tax consultant.

Among Ourselves

Carol Erting, associate professor of linguistics and research scientist at the Center for Deaf Studies in Education and Human Development, recently completed a sabbatical year of study and travel supported by a NATO fellowship. Dr. Erting made presentations at universities and research centers in 11 countries, attended six international conferences and met with professionals involved with deafness and parent-infant research.

Barbara Williams-Scott, instructor and materials specialist in the Audiology Department, recently lectured on Cued Speech to two Metropolitan D.C. groups of Self Help for Hard of Hearing People, Inc. (SHHH). The SHHH groups involved adults who became hearing impaired and are interested in Cued Speech as a possible adjunct to lipreading.

Gina Oliva, Marty Minter and Jimmy Calloway of the Department of Physical

Education and Recreation attended the annual convention of the National Recreation and Park Association (NRPA) in Anaheim, Calif. last month. Oliva spoke about possible links between the deaf community and local recreation agencies. Calloway, who spoke about the changing role of government in today's society, was the keynote speaker at the NRPA student branch banquet.

Barbara A. Brauer, research scientist in the Gallaudet Research Institute's Center for Studies in Education and Human Development and faculty member in the graduate-level Department of Counseling, recently participated as a panelist for a research project on "Test User Qualifications" at the American Psychological Association (APA). The Test User Qualifications Working Group functions under the APA's Joint Committee on Testing Practices, which has the objective of improving psychological testing.

Jobs Available

Some of the advertised staff positions may already be filled. For updated information, call the JOB RECORDING in the Personnel Office, x5358 or x5359 (TDD).

Walk in to 'Workout' for holiday shape-up

For those who want to get in shape for the holidays, the Office of Intramurals and Campus Recreation has an offer that's hard to refuse.

Anyone can join a Gallaudet Workout class on a walk-in basis for \$3 per class by simply going to the class or by purchasing a ticket ahead of time at the Intramurals office in Hughes Gym. For the 90-minute Gallaudet Workout Plus the cost is \$4 per class.
